TECHNICAL EXPERIENCE

GENERAL ASSEMBLY | WEB DEVELOPMENT IMMERSIVE STUDENT, BOSTON, MA

May 2018 – Present

12-week, 500+ hour web development training program in which I produced four full-stack projects, three individually and one as part of a team. I studied front- and back-end programming in a variety of programming languages and tools involving RESTful APIs using Git/GitHub for version control.

- **[The Hot Guyde Companion](#)** – A full-stack web application built to accompany my self-help book *The Hot Guyde* for journaling and tracking end-of-chapter exercises. Utilizes HTML, CSS, Javascript, Ember.js, Handlebars.js, Bootstrap, Ruby on Rails, and PostgreSQL.
- **[DuckCloud](#)** – A full-stack file storage and management application (similar to Dropbox) developed by SquishyDucks, a three-person team on which I worked. Built using HTML, JQuery, Javascript, Handlebars.js, Bootstrap, Express, Mongoose, and MongoDB.
- **[Pathfinder Stat-Block Lab](#)** – A full-stack web application for helping Pathfinder Game Masters design and run their games. Built with HTML, JQuery, Bootstrap, SCSS, Javascript, Ruby on Rails and PostgreSQL.
- **[Tic Tac Toe](#)** – My first project, a front-end web application for playing Tic Tac Toe built with HTML, SCSS, Javascript, and JQuery.
