TECHNICAL EXPERIENCE

GENERAL ASSEMBLY | WEB DEVELOPMENT IMMERSIVE STUDENT

May 2018 – Present

12-week, 500+ hour web development training program in which I produced four full-stack projects, three individually and one as part of a team. I studied front- and back-end programming in a variety of programming languages and tools involving RESTful APIs using Git/GitHub for version control.

- **Tic Tac Toe** – A front-end web application for playing Tic Tac Toe built with HTML, SCSS, Javascript, and JQuery.
- **Pathfinder Creature Stat-Block Generator** – A full-stack web application for helping Pathfinder Game Masters design and run their games. Front-end built with HTML, jQuery, Bootstrap, SCSS, and Javascript. Back-end built with Ruby on Rails and SQL.
- **TBD Group Project** – A full-stack web application utilizing HTML, JQuery, Javascript, SCSS, and Node API.
- **The Hot Guyde Companion** – A full-stack web application built to accompany my self-help book *The Hot Guyde* to help users with their journaling, cognitive behavioral therapy exercises, workouts, and more. Utilizes HTML, CSS, Javascript, JQuery, Ruby on Rails, and SQL.
