TECHNICAL EXPERIENCE

GENERAL ASSEMBLY | WEB DEVELOPMENT IMMERSIVE STUDENT, BOSTON, MA

May 2018 – August 2018

12-week, 500+ hour web development training program in which I produced four full-stack projects, three independently and one as part of a team. I studied front- and back-end programming in a variety of programming languages and tools involving RESTful APIs using Git/GitHub for version control.

- **The Self-Helper** – A full-stack web application built to help users track their efforts in self-improvement pursuits including therapy and exercise. Utilizes PostgreSQL, Ruby on Rails, and Ember.js.
- **DuckCloud** – A full-stack file storage and management application (similar to Dropbox) developed by SquishyDucks, a three-person team on which I worked. Utilizes AWS S3, MongoDB, Mongoose, Node.js, and Bootstrap.js.
- **Pathfinder Stat-Block Lab** – A full-stack web application for helping Pathfinder Game Masters design and run their games. Utilizes PostgreSQL, Ruby on Rails, and Javascript.
